

EDITORIAL FROM EDITOR-IN-CHIEF

I am pleased to inform you that **International Science Congress Association** has been established to reveal your valuable research to the scientific world. **Research Journal of Computer and Information Technology Sciences** is beginning its journey of international publication with this first online issue.

The Research Journal of Computer and Information Technology Sciences publishes research papers, review papers, review articles, technical reports, mini review and short communications in all aspects of Computer and Information Technology Sciences including computer architecture, computer graphics and visualizations, software engineering, algorithms, programming languages, operating systems, computer networks, operations research, game and multimedia systems, embedded system, security systems, web and wireless technologies, web designing and internet computing systems, future internet architecture, protocols and services, theoretical computer science, compiler design, database theory and practice, green networking, networking and communications systems, information and database systems, optical networks, bioinformatics, geographical information systems/ global navigation satellite systems (GIS/GNSS), intelligent VLSI, robotics, mobile and ubiquitous computing, mobile computing for e-commerce and recent trends in advanced Information technology, etc.

The objective is to cover all aspects of Computer and Information Technology Sciences including those areas which remained untouched till now. The field of Computer and Information Technology Sciences is flourishing with an abundance of fresh exciting discoveries and researches that continue to spur the development of powerful new techniques and expand innovative for sciences.

We invite contributors from worldwide to publish their innovative research in this journal.

Prof. Dr. Dipak Sharma

Editor-in-chief

Research Journal of Computer and Information Technology Sciences, Indore, MP, India
