Ideology and its relationship to the economy are very close. And help each other in different aspects in Society. Marx said Economic growth is the growth of technology and culture in society. For example, the capitalist who placed all production and technology and culture monopolized the market supply.

Western countries because of having high economy, its culture has developed in the world. For example, the media is in the hands of the capitalist system. And make economic growth more favorable to win.

**Formation of political ideology**

Nationalism: Nationalism is one of the issues which have the historical background in Afghanistan. Since long back till now the minorities in Afghanistan are victims of their rights. This phenomena is the name of tribalism, racism, language, fanaticism caused injustice extent in the society. Even the current leaders are misleading the new youth generation for practicing Nationalism entire the country. This ideology becomes a challenge to reform and government transparency in Afghanistan.

Liberalism: According Liberalism Perspective Liberalism is one of the elements to support human individual and generally entire the humanity views. Liberals want to ensure basic realm of personal freedom, including freedom of conscience, expression, association, employment, and stressed that the government should not intervene to support other against losses in the works. Conservatives fans know common sense and realism and with any design and imaginative ideas to create a profound transformation in society and politics are opposed. Their arguments are based on historical experience and its loop in the pragmatic. The historical roots conservative reaction against the Enlightenment in Europe are concerned, this ideology emerged in defense of the traditions and ideals of liberalism's main claim to freedom, equality, individualism, rationalism and secularism. What is anarchism? Anarchic chaos is seeking a political process that the interests of the working class and all working people and property is contrary. And the most reactionary petty-bourgeois political class from point of origin is. It is not in the evolution of society, This (Anarkhya) word derived from the Greek word which means the government is lack of leadership. Anarchists need for governments like the proletariat in any social situation, the need for political party programs of action and disciplining deny it. Anarchism actually inhibit the
development and unity of the people's struggle, The working class of their historic mission opens, Disunity and discord life instead of thanks and solidarity.

The hosts of this anarchism Afghan people and working people to not drive, United States of America for access to the energy resources of Central Asia under the pretext of war against terrorism in Afghanistan, With the bringing to power the most corrupt. And most backward handyman called his Afghan occupied OPEN is visible to everybody.

Geopolitical importance of Afghanistan for years America's eyes to your gates that had pinned Asian economy, Coalition forces led by the United States no image. America does not want peace to be established in Afghanistan and regional peace. But to continue to attempt to avoid anarchic and the status quo, or else the twenty thousand Taliban if we did, it lacks the tanks are Air Force and..... well, (80000) or more or less ISAF and America, (70000) forces Afghan army and police several thousand foreign troops equipped with modern weapons and how domestic security companies hired the air force how it can be achieved cannot be used, Or why the Taliban can’t be destroyed. Frankly speaking the war and the militarization of the world, in other words for the profitable weapons factories were, That if global world, peace, factories blocked the gates of the countries of weapons the United States of America it was not subject to bankruptcy?

On the other hand if the United States of America will have, Peace and end the war in Afghanistan is, Will not be easy to pull, the Taliban, Pakistan and Hamid Karzai a protégé of who are not his own, if you have the above mentioned America wants to present its permanent access to energy resources, anarchism and anarchy under his control continue America's permanent presence of the Afghan people obliged to accept to stay alive.

At the end can say linguistic, ethnic’s prejudices, external and Neighbor intervention, countries, lack of meritocracy in government system, lack of rule of law, poor management, lack of economic and Politic independence in the country to spread anarchism in Afghanistan.

**Fascism in Afghanistan**

Fascism is a historical behavior by Benito Mussolini as an attitude and behavior of nature was a political movement to engage in political literature.
But the evolution of the idea of the government of Afghanistan, Ahmad Shah Durrani begins. By Amir Abdul Rahman and Nadir allegory is at the peak of uterine. Web judgment, Hashim Khan and Mohammad Gul Khan Momand, Afghanistan's modern history has known that the behavior and attitude of the fascist elements to be with all power have exhibited. Mohammad Gul Khan Momand said, many of the historical monuments that belong to the non-Pashtun communities were devastated. But Mahmoud Tarzi thought rectify gave up the idea. Moreover Ahmad Shah Durrani seven times expedition to the land of India for the sake of Fascism idea, the capital of this land used to rob common people massacred expanded the extent of bleeding. In order to have fascist views Taliban and non-Pashtun minority’s behavior and historical values can be analyzed in the context of these attitudes. Destruction of the Buddhats of Bamiyan, the massacre of Hazaras in August 1998 for two days there were 11 thousand people mostly massacred Mazar-e Yakawelang, torching North vineyards and implement a scorched earth policy in northern Afghanistan, including the Taliban fascist phenomena that express their attitude and behavior.

Mir Abdul Rahman Khan to strengthen and expand the rule, more than half the population was massacred Hazaras, Uzbeks Tajik destroyed throngs of land bordering Khyber gave them to the carrier bar. This behavior apparently gave a boost state. Collection of historical hatred that some of the roots of the crisis in Afghanistan and promote the calamities of the people of Afghanistan, Amir tied it in policy and behavior. Nadir Another example of ethical behavior promotes violence Oppression reason is that moral opposition to fascist behavior has facilitated. Which has fascist allegory? 14

Nadir broken promise by Amir Habibullah Kalakani, followed by North people attack and plunder their land and assets, one of the most Black span the history of Afghanistan. Still bitter memories of that tragedy happened, grief paced the North vineyards and plunder invading Taliban were fresh. Afghanistan fascism in captivity, it's been hell for residents.

This bitter Experience that still continues, State fascism in Afghanistan have caused the people of this country never able to defy their nation and national15.

Political ethics behavior of Karzai and Ashraf Ghani as well as continue to analyze and interpret historical behavior is paced so that the roots growing tradition of social teachings of the clan entire the country 16.

Brzezinski, President Jimmy Carter in coordination with America proposed Senate to approve 80$ Million Dollar for Supporting Pakistan Extremism.

Thereafter The Senate approved the money. America in coordination with Arabic countries like Saudi Arabia and the Middle East over the duration of the assistance has increased to 300 million. Pakistan used the coming opportunity to strengthen its military forces up to reach and create nuclear weapons institution under leading Abdul Qadir Khan and Consolidated its position in the world.

Brzezinski doctrine plan in 1982 by Carter once again to support the Jihad in Afghanistan "Afghan Jihad Fund" established. This welcome message to the Pakistani leadership Ziaulhaq was like, here's the money management person named alia Mahmud was heralded the Ziaulhaq assistant managing this funds was leading. After Zia's visit to Washington this aid has totaled $ 800 million. The money donated to the jihad in Afghanistan, Most of this money was used by Pakistan to strengthen its military forces. Most of this money to Pakistan to strengthen its military forces and for the Baluchistan freedom takes “Pakistan was America's first infant was a young man and threatens its neighbors”17.

Afghanistan is one of the country's Islamic ideology shapes the beliefs of the people, Thus, any nation such as America tries to use these beliefs as a political tool And achieve their goals, When the Russians occupied Afghanistan to other countries of reprisal Tachara Mrs. JB Carter proposed a plan to the Afghan people, That Islam is being destroyed in Afghanistan, Afghan people for their religious beliefs against the Russians, the Russians rushed the victim to a million people from Afghanistan to defeat, Then the Russians left Afghanistan with heavy losses.

In the current situation of Islamic ideology in rural society more outstanding than in the urban community, those living in rural communities affected by the beliefs of religious leaders, But Afghan political ideology in the present situation based on ethnic, linguistic group, the region moves on. Afghanistan is a country that is neither economic nor political independence, Thus religious and political ideologies Afghanistan has been affected by Western ideology, so it cannot maintain its independence and sovereignty 18.

Case-2: “Afghan presidential election in 2014 the reasons fascist ideology became widespread fraud. As one high-ranking officials of the Electoral Commission, which was an ethnic Pashtun other Pashtun said in a secretly meeting. We do not like that the Afghan president should be from another Ethics, such as Tajiks, Hazaras and others. Since elections last effort was 2014 I and our Pashtun Colleagues reached this goal. Even though it was called a national traitor to me, but this title is better than it was a Pashtun series lost power”19.
Case-3: Karim Khoram ethics of Pashton when he was Ministry of Information and Culture he gone to Mazar sharif while a Young Journalist Question him the word of Daneshka as version of Persian (University) later on he removed that journalist from TV department in sake of calling word of (Daneshka) during his speech, this ideology can support the element of Fascism entire country.

Afghanistan idea of fascism fire

Case-4: Fascism moves in every society, the destruction of social justice. Evidence shows that the fascist movement in Afghanistan has historic background. Masses of People moving to the victims of these historical periods for example, in University of Mazar sharif, in sake of writing the name of University board, Pashto and Dari script there a big conflict emerged and number of the student were killed. Number of other student injured for this issues, this case shows till now Fascism of language increasing and making society insecure.

Political ideologies in Afghanistan’s have history of different regimes, like Marxism, Liberalism, Socialism, Radicalism and Anarchism every regime want to misuse from this opportunity.

America is misusing, from this opportunity by the own economic and Political supporting GB carter was funding extremists in Pakistan and Afghanistan. America since 1982 tried to gain revenge of Vietnam War from Afghanistan till now.

This study shows that America is not interested ending the war in Afghanistan. American attempts under the pretext of combating terrorism have permanent bases in Afghanistan. Long-standing animosity and create a rival to Russia’s concerns, as concerns the economic and political rival in Central Asia created.

End of war and peace in the world is a big break America's economy. Peace in the world will be the closing of Fabricate weapons guns in America. This study showed that acute difficulties the Afghan government is practicing fascism ideology and pushing system in cesspool of corruption, discrimination, weak leadership of leaders. Inter conflict and extend fraud election in Presidential election 2014 is one of issues.

The ideology of anarchism is one of the acute problem of Afghan government, The people of Afghanistan are struggling. This situation is imposes America for the Afghan people to be like that these are misery like insecurity, corruption, Political problem are the causes of America in Afghanistan.

Finally, this study shows that religious ideology has been eased and replaced by linguistic, ethnic discrimination and Group has been formed.
